CORPORATE AI TOOLS & TRAINING HANDBOOK

60 Departments | Claude, Gemini, Gamma & Specialist AI Tools

A department-by-department training reference for enterprise workforce upskilling, including iMinds Academy curriculum planning.

October 2026 | Revised edition

TRAINING PRINCIPLES

Foundation (all employees): Learn one employer-approved general AI assistant (ChatGPT, Claude or Gemini), prompting, verification, privacy, data handling, source checking, and human review. Tools listed below are recommended options, not universal mandatory purchases.

Role-based: Select 2–4 tools for practical exercises, including a general assistant and the specialist platform most relevant to the role. Gamma is useful primarily for presentations; Canva for design; NotebookLM for source-grounded study and synthesis.

Proficiency: Core = 6–10 hours; Advanced = 12–20 hours; Specialist = 20–40+ hours. Assess real deliverables, safe data use, output accuracy and repeatable workflow.

Important: Enterprise licensing, data residency, integrations and product features vary. Validate before adoption. Never upload confidential company, customer, employee, financial or legal information into unapproved tools.

AI TOOL SELECTION QUICK GUIDE

ChatGPT: writing, analysis, structured problem-solving, coding and workflow support.

Claude: long-document synthesis, careful drafting, code assistance and reasoning.

Gemini: research, multimodal work and Google Workspace workflows (where licensed).

Gamma: rapid presentation, proposal and training-deck creation; human design review needed.

NotebookLM: working with uploaded source materials, study guides and grounded Q&A.

Canva Magic Studio: marketing graphics, posters, social creatives and course materials.

Perplexity: web-supported discovery and competitive scanning with source validation.

GitHub Copilot / Claude Code / Gemini Code Assist: coding support with secure repository controls.

DEPARTMENT-WISE TOOL & SKILL DIRECTORY

01. Office of the CEO | Core

Recommended tools: Claude, Gemini, Gamma, Microsoft 365 Copilot, ChatGPT Enterprise, Power BI Copilot.

Workplace application: Executive briefs, meeting decisions, KPI narratives.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

02. Corporate Strategy | Advanced

Recommended tools: Claude, Gemini, Perplexity, Gamma, ChatGPT Enterprise, Perplexity Enterprise, Power BI Copilot.

Workplace application: Scenario analysis, competitive synthesis, strategy memos.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

03. Corporate Development & M&A | Specialist

Recommended tools: Claude, Gemini, NotebookLM, Microsoft 365 Copilot, ChatGPT Enterprise, Datasite AI.

Workplace application: Due diligence summaries, valuation assumptions, integration trackers.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

04. Board Secretariat & Corporate Governance | Core

Recommended tools: Claude, Gemini, NotebookLM, Microsoft 365 Copilot, Microsoft Teams Copilot, Adobe Acrobat AI Assistant.

Workplace application: Board packs, minutes, action registers and document search.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

05. Enterprise Risk Management | Advanced

Recommended tools: Claude, Gemini, Microsoft 365 Copilot, Power BI Copilot, ServiceNow Now Assist.

Workplace application: Risk registers, control mapping, trend summaries.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

06. Legal Affairs | Specialist

Recommended tools: Claude, Gemini, NotebookLM, Microsoft 365 Copilot, Microsoft Word Copilot, Thomson Reuters CoCounsel.

Workplace application: Contract review, legal research and clause comparison.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

07. Regulatory Compliance | Specialist

Recommended tools: Claude, Gemini, NotebookLM, Microsoft 365 Copilot, ServiceNow Now Assist, Thomson Reuters CoCounsel.

Workplace application: Regulatory change summaries, control evidence, compliance checklists.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

08. Internal Audit | Specialist

Recommended tools: Claude, Gemini, Microsoft 365 Copilot, Power BI Copilot, AuditBoard AI.

Workplace application: Audit planning, control testing support, exception triage.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

09. Ethics & Investigations | Advanced

Recommended tools: Claude, Gemini, Microsoft 365 Copilot, ServiceNow Now Assist, ChatGPT Enterprise.

Workplace application: Case summaries, policy comparisons, investigation timelines.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

10. ESG & Sustainability | Advanced

Recommended tools: Gemini, Claude, Gamma, Microsoft 365 Copilot, Power BI Copilot, ChatGPT Enterprise.

Workplace application: ESG reporting drafts, emissions data narratives, disclosure checks.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

11. Human Resources Business Partnering | Core

Recommended tools: Claude, Gemini, Microsoft 365 Copilot, Workday AI, ChatGPT Enterprise.

Workplace application: HR advisory drafts, policy search, manager guidance.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

12. Talent Acquisition | Advanced

Recommended tools: Gemini, Claude, LinkedIn Recruiter AI, Workday AI, Microsoft 365 Copilot.

Workplace application: Job descriptions, sourcing, interview question design.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

13. Learning & Development | Core

Recommended tools: Gamma, Canva Magic Studio, Claude, Gemini, NotebookLM, ChatGPT Enterprise, Microsoft 365 Copilot.

Workplace application: Learning objectives, lesson plans, quizzes and training videos.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

14. Compensation, Benefits & Payroll | Specialist

Recommended tools: Claude, Gemini, Workday AI, Microsoft 365 Copilot, Power BI Copilot.

Workplace application: Compensation analytics, payroll exception review, employee FAQs.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

15. Talent Management & Succession | Advanced

Recommended tools: Claude, Gemini, Workday AI, Microsoft 365 Copilot, Power BI Copilot.

Workplace application: Skill matrices, succession planning, development pathways.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

16. People Analytics & HR Operations | Advanced

Recommended tools: Gemini, Claude, Workday AI, Power BI Copilot, Microsoft 365 Copilot.

Workplace application: Workforce dashboards, HR queries, attrition pattern analysis.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

17. Diversity, Equity & Inclusion | Core

Recommended tools: Claude, Gemini, Gamma, Microsoft 365 Copilot, ChatGPT Enterprise, Power BI Copilot.

Workplace application: Inclusive-language review, anonymized feedback synthesis.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

18. Workplace Administration & Facilities | Core

Recommended tools: Gemini, Canva Magic Studio, Microsoft 365 Copilot, ServiceNow Now Assist, Power Automate.

Workplace application: Facility tickets, vendor communications, request routing.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

19. Health, Safety & Wellbeing | Advanced

Recommended tools: Gemini, Gamma, Claude, Microsoft 365 Copilot, Power BI Copilot, ChatGPT Enterprise.

Workplace application: Safety checklists, incident summaries, training materials.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

20. Financial Planning & Analysis | Advanced

Recommended tools: Claude, Gemini, Excel Copilot, Power BI Copilot, ChatGPT Enterprise.

Workplace application: Budget variance narratives, scenario modeling, forecast commentary.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

21. Accounting & Financial Reporting | Advanced

Recommended tools: Claude, Gemini, Excel Copilot, Microsoft 365 Copilot, SAP Joule.

Workplace application: Reconciliation assistance, journal explanations, reporting drafts.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

22. Treasury & Cash Management | Specialist

Recommended tools: Claude, Gemini, Excel Copilot, Power BI Copilot, ChatGPT Enterprise.

Workplace application: Cash flow scenarios, liquidity reporting, treasury analysis.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

23. Taxation | Specialist

Recommended tools: Claude, Gemini, Thomson Reuters CoCounsel, Microsoft 365 Copilot, Excel Copilot.

Workplace application: Tax research support, document extraction, review checklists.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

24. Accounts Payable & Receivable | Advanced

Recommended tools: Gemini, Claude, SAP Joule, Microsoft 365 Copilot, Power Automate.

Workplace application: Invoice extraction, payment exceptions, collection follow-ups.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

25. Procurement & Strategic Sourcing | Advanced

Recommended tools: Claude, Gemini, Perplexity, SAP Joule, Microsoft 365 Copilot, ChatGPT Enterprise.

Workplace application: RFP drafting, spend analysis, supplier comparison.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

26. Vendor & Third-Party Management | Advanced

Recommended tools: Claude, Gemini, ServiceNow Now Assist, Microsoft 365 Copilot, Power BI Copilot.

Workplace application: Vendor risk summaries, SLA monitoring, supplier scorecards.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

27. Investor Relations | Advanced

Recommended tools: Gamma, Claude, Gemini, Microsoft 365 Copilot, Power BI Copilot, ChatGPT Enterprise.

Workplace application: Investor Q&A preparation, earnings summaries, performance narratives.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

28. Sales - Enterprise & Key Accounts | Core

Recommended tools: Claude, Gemini, Gamma, Salesforce Einstein, Microsoft 365 Copilot, Gong AI.

Workplace application: Account research, call summaries, opportunity planning.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

29. Sales - SMB & Inside Sales | Core

Recommended tools: Gemini, Gamma, Canva Magic Studio, HubSpot AI, Salesforce Einstein, Microsoft 365 Copilot.

Workplace application: Lead qualification, personalized outreach, pipeline follow-ups.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

30. Sales Operations & Revenue Operations | Advanced

Recommended tools: Claude, Gemini, Gamma, Salesforce Einstein, Power BI Copilot, Gong AI.

Workplace application: Forecast insights, pipeline hygiene, revenue performance analysis.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

31. Marketing & Brand | Core

Recommended tools: Canva Magic Studio, Gamma, Gemini, Claude, Adobe Firefly, ChatGPT Enterprise.

Workplace application: Brand-safe copy, campaign concepts, creative production.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

32. Digital & Performance Marketing | Advanced

Recommended tools: Gemini, Canva Magic Studio, Gamma, Google Ads AI, Meta Advantage+, HubSpot AI.

Workplace application: Campaign optimization, audience testing, performance reporting.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

33. Market Research & Competitive Intelligence | Core

Recommended tools: Perplexity, Gemini, Claude, NotebookLM, Perplexity Enterprise, ChatGPT Enterprise, Power BI Copilot.

Workplace application: Research synthesis, competitor tracking, survey analysis.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

34. Business Development & Partnerships | Core

Recommended tools: Gamma, Claude, Gemini, Microsoft 365 Copilot, LinkedIn Sales Navigator AI, ChatGPT Enterprise.

Workplace application: Partner discovery, proposals, relationship mapping.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

35. Pre-Sales & Solution Consulting | Advanced

Recommended tools: Gamma, Claude, Gemini, Microsoft 365 Copilot, ChatGPT Enterprise, Salesforce Einstein.

Workplace application: RFP responses, solution proposals, demo preparation.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

36. Customer Success | Advanced

Recommended tools: Claude, Gemini, Gamma, Salesforce Einstein, Gainsight AI, Microsoft 365 Copilot.

Workplace application: Customer health, renewal risks, success plans.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

37. Customer Support & Contact Center | Core

Recommended tools: Gemini, Claude, Zendesk AI, Intercom Fin, ServiceNow Now Assist.

Workplace application: Ticket classification, knowledge search, agent-assist responses.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

38. Customer Experience & Service Design | Advanced

Recommended tools: Claude, Gemini, Canva Magic Studio, Qualtrics AI, Microsoft 365 Copilot, ChatGPT Enterprise.

Workplace application: Voice-of-customer synthesis, journey mapping, service insights.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

39. Product Management | Core

Recommended tools: Claude, Gemini, Gamma, NotebookLM, Jira Atlassian Intelligence, Microsoft 365 Copilot, ChatGPT Enterprise.

Workplace application: PRDs, backlog refinement, release communication.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

40. Product Design & UX Research | Advanced

Recommended tools: Figma AI, Canva Magic Studio, Gemini, Claude, FigJam AI, ChatGPT Enterprise.

Workplace application: Wireframe ideation, usability themes, UX content.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

41. Software Engineering - Applications | Core

Recommended tools: Claude Code, Gemini Code Assist, GitHub Copilot, Cursor, ChatGPT Enterprise.

Workplace application: Code generation, refactoring, documentation, code review support.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

42. Quality Engineering & Testing | Advanced

Recommended tools: Claude Code, Gemini Code Assist, GitHub Copilot, Playwright, ChatGPT Enterprise.

Workplace application: Test case generation, automation scripts, defect triage.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

43. Cloud Infrastructure & Platform Engineering | Specialist

Recommended tools: Gemini Code Assist, Claude Code, Amazon Q Developer, Azure Copilot, GitHub Copilot.

Workplace application: Infrastructure templates, cloud troubleshooting, cost analysis.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

44. DevOps & Site Reliability Engineering | Specialist

Recommended tools: Claude Code, Gemini Code Assist, GitHub Copilot, Datadog Bits AI, Dynatrace Davis AI.

Workplace application: Runbook generation, incident investigation, observability queries.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

45. IT Infrastructure & End-User Computing | Advanced

Recommended tools: Gemini, Claude, Microsoft Security Copilot, ServiceNow Now Assist, Microsoft 365 Copilot.

Workplace application: IT ticket resolution, endpoint support, knowledge articles.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

46. Enterprise Applications & ERP | Specialist

Recommended tools: Gemini, Claude, SAP Joule, Salesforce Einstein, Microsoft 365 Copilot.

Workplace application: ERP workflows, CRM insights, enterprise app support.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

47. Cybersecurity Operations | Specialist

Recommended tools: Gemini, Claude, Microsoft Security Copilot, CrowdStrike Charlotte AI, Google Gemini in Security.

Workplace application: Alert triage, threat hunting, incident summaries.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

48. Security Governance, Risk & Privacy | Specialist

Recommended tools: Gemini, Claude, Microsoft Security Copilot, Microsoft Purview, ServiceNow Now Assist.

Workplace application: Security policy mapping, privacy workflows, risk assessments.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

49. Data Engineering & Data Platforms | Specialist

Recommended tools: Gemini, Claude Code, Databricks Assistant, Snowflake Cortex AI, GitHub Copilot.

Workplace application: SQL generation, data pipelines, quality troubleshooting.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

50. Business Intelligence & Analytics | Core

Recommended tools: Gemini, Claude, Gamma, Power BI Copilot, Tableau Pulse, ChatGPT Enterprise.

Workplace application: Dashboard narratives, natural-language data exploration.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

51. AI, Machine Learning & Automation | Specialist

Recommended tools: Claude Code, Gemini, Google AI Studio, Azure AI Foundry, Amazon Bedrock, MLflow.

Workplace application: Model evaluation, RAG pipelines, agent governance and MLOps.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

52. Research, Innovation & Emerging Technology | Advanced

Recommended tools: Claude, Gemini, Perplexity, Gamma, ChatGPT Enterprise, Perplexity Enterprise, GitHub Copilot.

Workplace application: Technology scanning, prototype planning, experiment documentation.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

53. Enterprise Architecture & Integration | Specialist

Recommended tools: Claude, Gemini, Gamma, Microsoft 365 Copilot, ChatGPT Enterprise, GitHub Copilot.

Workplace application: Architecture decision records, integration patterns, design reviews.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

54. Project & Program Management Office | Core

Recommended tools: Gamma, Claude, Gemini, Microsoft 365 Copilot, Jira Atlassian Intelligence, Power BI Copilot.

Workplace application: Status reports, dependency analysis, project risk summaries.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

55. Service Delivery & Managed Services | Advanced

Recommended tools: Gemini, Claude, ServiceNow Now Assist, Microsoft 365 Copilot, Power BI Copilot.

Workplace application: SLA reporting, service desk optimization, incident patterns.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

56. Business Operations & Process Excellence | Advanced

Recommended tools: Gamma, Claude, Gemini, Microsoft 365 Copilot, Power Automate, UiPath Autopilot.

Workplace application: Process mapping, workflow automation, SOP creation.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

57. Business Transformation & Change Management | Advanced

Recommended tools: Gamma, Claude, Gemini, Canva Magic Studio, Microsoft 365 Copilot, ChatGPT Enterprise, Power BI Copilot.

Workplace application: Change impact assessments, communications, adoption analysis.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

58. Quality Management & Process Compliance | Advanced

Recommended tools: Claude, Gemini, Gamma, Microsoft 365 Copilot, Power BI Copilot, ChatGPT Enterprise.

Workplace application: Quality audit summaries, root-cause analysis, SOP improvement.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

59. Business Continuity & Disaster Recovery | Specialist

Recommended tools: Claude, Gemini, Microsoft 365 Copilot, ServiceNow Now Assist, ChatGPT Enterprise.

Workplace application: Recovery playbooks, scenario exercises, incident communications.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

60. Supply Chain, Logistics & Inventory | Advanced

Recommended tools: Gemini, Claude, SAP Joule, Microsoft 365 Copilot, Power BI Copilot.

Workplace application: Demand insights, inventory exception review, supplier reporting.

Training assignment: Create one role-specific deliverable using an approved AI assistant; validate sources and figures; document prompts, edits, quality checks and time saved.

IMPLEMENTATION ROADMAP

Weeks 1–2: Baseline AI literacy, privacy, prompt skills and a common approved assistant.

Weeks 3–4: Department-specific use cases and Claude/Gemini comparative exercises.

Weeks 5–6: Gamma presentation workshops; NotebookLM document workflows; Canva for creative teams.

Weeks 7–9: Domain tools (CRM, finance, coding, analytics, security) and integration labs.

Weeks 10–12: Capstone, manager review, adoption metrics and certification.

ASSESSMENT RUBRIC

Accuracy & fact checking 40%; safe and compliant handling 25%; business usefulness 20%; process documentation and explainability 15%. Suggested pass mark 80%, with no critical privacy violation.
